INTRODUCTION

Computer Science student at Western University with strong foundations in software development, data structures, algorithms, and full-stack web technologies. Experienced in Java, Python, C, C++, and JavaScript, with projects involving AI, APIs, and responsive web design. Seeking software engineering or data science internships to apply technical expertise in programming, data analysis, and problem-solving to real-world challenges.

EDUCATION

Western University (UWO) **London, ON**
Bachelor of Science, Honours Specialization in Computer Science 2023-2027

Galt Collegiate Institute (GCI) **Cambridge, ON**
• French Immersion Student • Student Athlete (junior and senior boys' volleyball) 2019-2023

WORK EXPERIENCE

Weld Shop Team Member **May 2024 - Present**
Toyota Motor Manufacturing Canada Cambridge, ON

- Rotated across multiple roles assembling and installing doors, hoods, and fenders for Toyota RAV4 and Lexus NX models with precision, ensuring quality standards
- Excelled in both on-line and off-line roles in a high-speed, demanding environment, contributing to efficient plant operations

Assembler **June 2023 - Sept 2023**
Loblaws Distribution Centre Cambridge, ON

- Operated a center-ride pallet machine to assemble high-volume, time-sensitive grocery orders with 95%+ efficiency
- Consistently exceeded productivity targets in a fast-paced warehouse environment through strong time management and attention to detail warehouse environment

Shift Leader & Keyholder **March 2021 - June 2023**
Dairy Queen Cambridge, ON

- Performed all cash management activities, including payment transactions and counting till
- Trained and supervised new employees

PROJECTS

Study App | JavaScript **March 2025**

- Developed a cue card studying app with a built-in AI chatbot using the Deepseek API

Virtual Pet Game | Java **Jan 2025**

- Built a virtual pet simulator as a group coursework project, featuring save/load with JSON and parental controls

Portfolio Website | HTML, CSS, JavaScript **2024 - Present**

- Programmed a responsive portfolio website with parallax effects and scroll-triggered animations

RELEVANT COURSES

IBM AI Fundamentals, IBM Cybersecurity Fundamentals, CS 2210 (Data Structures & Algorithms), CS 2212 (Intro to Software Engineering)

TECHNICAL SKILLS

Languages | Java, Python, JavaScript, C, C++, HTML, CSS · Linux/Unix

Awards | 2024-2025 Dean's Honour List (Western), Slater Award for Excellence in Mathematics (GCI)
